8th Joint ACTRIMS-ECTRIMS Meeting

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Interstate Postgraduate Medical Association (IPMA) and ACTRIMS.

The IPMA is accredited by the ACCME to provide continuing medical education for physicians. The IPMA designates this enduring activity for a **maximum of 81.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Through the American Board of Medical Specialties (“ABMS”) ongoing commitment to increase access to practice relevant Maintenance of Certification (“MOC”) Activities through the ABMS Continuing Certification Directory, MSVirtual2020: 8th Joint ACTRIMS-ECTRIMS Meeting has met the requirements as a **MOC Part II CME Activity** (apply toward general CME requirement) and/or for the following ABMS Member Boards:

MOC Part II CME Activity

ABMS Continuing Certification Diplomate Survey

To continue to improve the experience of physicians participating in MOC, please distribute the survey link below to all learners who complete this activity. This survey aims to aggregate feedback from physicians (and related healthcare professionals) on activities indexed in the Continuing Certification Directory and solicits feedback to improve the value of the ABMS Continuing Certification Directory.

Learning & Program Objectives

The themes for this conference, designed by the MSVirtual2020 Scientific Program Committee are clinical, pathogenesis, translational, and environmental/genetic factors and were derived from past attendee input and emerging studies and literature.

MSVirtual2020 key areas for education:

- Therapeutic strategies for suppressing disease activity and disability accumulation in individuals with radiologically isolated syndrome, relapsing remitting MS and progressive MS
- Efficacy of current disease modifying therapies across clinical subsets of individuals with MS

- Role of innate immune cells in pathogenic and reparative pathways in MS
- Relationship between the gut, microbiome, and disease activity in individuals with MS
- Advances in imaging and visual system parameters in the diagnosis, prognosis and monitoring of individuals with MS
- Integration of information on environmental, life style, age-related, and genetic/ epigenetic factors in MS risk and clinical course
- Use of machine learning approaches in predicting MS risk and clinical course

COMMERCIAL SUPPORT

The MSVirtual2020 is supported in part by unrestricted educational grant from the following commercial entity:

- Biogen

DISCLOSURE STATEMENTS

As a provider dedicated to independent education and accredited by the ACCME, IPMA must ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. All individuals (including their spouse/partner) with potential to influence the content of this program have submitted Conflict of Interest declarations that have been reviewed according to policy and these declarations are listed below. All individuals with potential conflicts have been contacted as needed by IPMA staff, and issues of conflict have been discussed, managed, and mitigated. Disclosures will be shared with MSVirtual2020 attendees prior to the meeting.

Additionally, all faculty have been asked to disclose to learners any discussion of off-label uses of drugs, mechanical devices, biologics, or diagnostics approved by the FDA for use in the United States and investigational drugs, mechanical devices, biologics, or diagnostics not approved by the FDA for use in the United States.
